

# **CENG 111 – Computer Programming I**

## **Labwork 2**

1. Write a C program to print your name, date of birth.

Expected Output:

Name : Kaan Aydin

DOB : March 7, 1994

- a. Use no placeholders.
  - b. Use placeholders as necessary.
2. Write a C program to print a block F using hash (#), where the F has a height of six characters and width of five and four characters.

3. Write a C program to output the following:

First number = 5

Second number = 20

- a. Using two printf() with print list
  - b. Using a single printf() without print list
  - c. Using a single printf() statement with print list
4. Define 3 character variables and assign letters to them as following: 'A', 'S', 'P'. Then, print them in reverse order.
